Subject: Material for the Response to Vitter and Inhofe
[scientific-integrity-of-hf-study.pdf](#)
[Kraner Pennsylvania Response 2-6-12 \(1\).docx](#)

Gary,

I just spoke with Dayna Gibbons, who has some information that will be helpful, but she is not available to talk until Thursday since she will be in an all-day retreat tomorrow. In the meantime, you should be able to get some useful language from the attached fact sheet (found on the HF website: <http://epa.gov/hfstudy>). Also attached is a near-final draft response from a year ago that has some general language that would need to be updated based on where we are now, but it is an example of how we have responded to similar questions in the past. Region 8 (Ayn) may have some text that will be helpful as well.

Since NRMRL has the lead for this response, you can request an extension (I'm not sure what the due date is now). Let me know if you have questions.

Fred
